Agenda Item: 8A

DONNER SUMMIT PUBLIC UTILITY DISTRICT

STAFF REPORT

TO: Board of Directors

PREPARED BY: Steven Palmer, PE, CSDM, General Manager SP

SUBJECT: Approve a Five-Year Agreement with Ferrellgas for Propane Supply

---

RECOMMENDATION

Approve a five-year agreement with Ferrellgas for propane supply.

BACKGROUND

The District's propane supply contract with Suburban Propane expired on October 31, 2026 and service is currently on a month-to-month basis.

The District's propane system at the wastewater treatment plant uses eight 1,000-gallon tanks and has used an average of 57,000 gallons of propane per year over the last three years. There are also small tanks at the Boreal Pump Station and Big Bend Water Treatment Plant.

DISCUSSION

Staff requested and received proposals from four suppliers: AmeriGas, Campora, Ferrellgas, and Suburban Propane. The District requested that the prices be expressed as a markup over the Midstream Energy – San Francisco Market Base, Butane Propane Newsletter (Midstream) prices published by the State of California Department of General Services. This will provide maximum transparency into pricing and allow the District to independently audit each invoice. The proposals are attached and summarized below:

Vendor	Term	Pricing Formula	Price on November 2, 2026	Monthly Fees	Install Fees
AmeriGas	3 years	Midstream + $0.49/gal	$2.16/gal	None	$400
Campora	5 years	Midstream + $0.51/gal	$2.18/gal	None	None
Ferrellgas	5 years	Midstream + $0.28/gal	$1.95/gal	None	None
Suburban	5 years	Midstream + $1.00/gal	$2.67/gal	~$70/delivery $95/yr for remote monitoring	None

The existing tanks do not have remote monitoring; all suppliers have proposed providing this capability.

The proposal from Ferrellgas has the lowest markup over the designated index, resulting in a current price of $1.95 per gallon. For comparison, Suburban's price from the most recent delivery on October 21, 2026 was $3.3275 per gallon plus tax, plus a fuel surcharge fee of $37.88 and a safety fee of $25.84.

Ferrellgas confirmed the pricing and reviewed three years of delivery data to verify they can meet the District needs. Ferrellgas also noted that they have offices in Nevada City and Reno and can deliver from either side of the summit.

Staff recommends that the Board approve a five-year agreement with Ferrellgas for propane supply.

FISCAL IMPACT

The Fiscal Year 2026/2027 Operating Budget includes $180,000 for propane. The total charges for propane delivered this fiscal year to date is $1,174.86. All four proposals would result in propane costs less than the budgeted amount and a budget amendment is not needed. The proposed agreement with Ferrellgas would cost approximately 59% of the current Suburban Propane agreement.

CEQA ASSESSMENT

This action is not a CEQA Project.

AmeriGas®
America's Propane Company
RELIABLE, SAFE, RESPONSIVE

This proposal has been prepared for:

DONNER SUMMIT
PUBLIC UTILITY DISTRICT

Thank you for the opportunity to present this proposal to the Donner Summit Public Utility District.

As the largest propane distributor in the United States, AmeriGas provides unmatched infrastructure, nationwide reach, and dedicated service teams—distinct advantages that make us exceptionally well-equipped to support the demands of a high-usage propane system in a challenging, weather-impacted region.

By selecting AmeriGas as your centralized propane provider, DSPUD will gain increased regulatory assurance, reduced operational risk, and the confidence of working with an industry leader. Our agreements include comprehensive insurance and indemnification provisions, standardized safety protocols across all serviced sites, and a proven commitment to reliability and service excellence.

Thank you for your consideration.

Servicing Location
AmeriGas – Truckee, CA

Introduction

AmeriGas is proud to be the nation's largest propane provider, serving over **1.7 million customers** across the United States. Since our founding in **1959**, our mission has remained the same: to deliver the safest, most reliable, and most responsive propane service in the country. We combine the strength and scale of a national organization with the personalized service typically found in local, family-owned businesses—offering our partners both dependability and a personal touch.

With AmeriGas, you gain more than just a propane supplier, you gain a trusted partner equipped with unmatched resources, industry expertise, and a commitment to operational excellence.

Our customers benefit from competitive advantages that regional providers often cannot offer. As a national distributor with **ownership of our rail and trucking assets**, we maintain control over our supply chain and ensure reliable product delivery—even when others are impacted by regional shortages.

With a network of over **1,900 locations nationwide**, AmeriGas ensures timely and dependable service wherever you operate. Locally, our **Truckee office**, located less than **12 miles** from DSPUD, is fully staffed and supported by additional teams in **Grass Valley, Quincy, Portola, Carson City, Sparks, and South Lake**, and other Nevada/California based offices. We also maintain **multiple storage yards across both states**, stocked with thousands of gallons of propane to support both routine operations and peak demand periods.

AmeriGas®
America's Propane Company
RELIABLE, SAFE, RESPONSIVE

Safety Culture

At AmeriGas, **safety is foundational to everything we do**. We are committed to maintaining a world-class safety culture through continuous education, rigorous protocols, and industry leadership.

Our **full-time safety management team** works closely with both our employees and customers to ensure adherence to all applicable safety regulations and best practices. Every AmeriGas facility is operated in compliance with **local, state, and federal regulations**, and we strictly adhere to all **NFPA (National Fire Protection Association)** standards across our operations.

AmeriGas is proud to be at the forefront of propane safety innovation. We have helped develop many of the industry's current safety standards and remain an active leader in shaping safe practices across the sector.

To support our customers, AmeriGas offers a **comprehensive safety training program**, customizable to the specific needs of your operation. We will provide initial training for your team covering propane fundamentals, proper handling procedures, and emergency response protocols, ensuring your employees are well-informed and well-prepared.

Highlights of Benefits

By partnering with AmeriGas, the Donner Summit Public Utility District will gain access to a comprehensive suite of services and operational advantages designed to ensure efficiency, safety, and reliability:

- **Reliable, Safe, and Responsive Service** – Proven track record of industry-leading performance.
- **Security of Supply** – National scale and robust logistics ensure uninterrupted fuel availability.
- **Vendor Consolidation** – Streamline operations and leverage total propane consumption under a single agreement.
- **24/7 Customer Care** – Round-the-clock support through our dedicated service teams.
- **Program Consistency** – Standardized service levels and policies across all locations.
- **Digital Convenience** – MYAMERIGAS online portal for billing, ordering, and account management.
- **Airborne Emergency Response Team** – Rapid mobilization in response to weather events, disasters, or supply disruptions.
- **Telemetry Monitoring** – Real-time propane level tracking accessible to both DSPUD and AmeriGas, 24/7.
- **24/7 Emergency Support** – Immediate response with local, on-call technicians and drivers available any time. Should you ever encounter an issue with our service for any reason, our Customer Care team is available to assist you **24 hours a day, 365 days a year**. Simply contact us at **(800) GAS-4-YOU (427-4968)** for prompt and reliable support.

AmeriGas
America's Propane Company
RELIABLE, SAFE, RESPONSIVE

Proposal

AmeriGas Propane is pleased to extend the following offer, based on a 3-year service agreement.

1. **Equipment Lease and Service Initiation:**

   - **Comprehensive Equipment Provision**: AmeriGas will supply all necessary equipment and materials to initiate service. This includes regulators, tanks, tank blocks, and all applicable parts and fittings.
   - **Flat-Rate Labor Fee**: A one-time labor fee of **$400** will be applied for the complete on-site equipment swap. This represents substantial cost savings, as the work will require a team of technicians and over 8 hours of labor.
   - **Safety & Leak Inspection**: A thorough safety and leak inspection will be conducted across the site. This includes a full system pressure test and verification of pressure retention throughout, including the underground gas line.

   Total cost to swap services: $400

2. **Fuel Price:**

   - Propane will be billed at **$0.49 per gallon plus the Midstream San Francisco terminal cost**, plus any applicable taxes.
   - As a current pricing example: as of October **15th, 2026,** the base cost is **$1.52 per gallon**, resulting in a total delivered cost of **$2.01 per gallon to DSPUD.**
   - There is **no minimum usage requirement** under this agreement.

3. **Maintenance:**

   - **Ongoing Service and Maintenance Support**: AmeriGas in-house service technicians are available to support all operational maintenance activities related to the propane system. We cover the replacement of all leased equipment—including regulators, tanks, and associated materials at no additional cost. For customer-owned infrastructure requiring replacement (e.g., underground gas lines, risers, or other non-leased components), AmeriGas will provide a detailed quote outlining the applicable costs for parts, fittings, and labor.

AmeriGas is honored to have the opportunity to support the Donner Summit Public Utility District. As the largest propane provider in the nation, we are uniquely equipped to ensure a reliable and uninterrupted fuel supply—backed by the expertise, resources, and operational excellence that come with decades of industry leadership.

We sincerely appreciate your time and consideration, and we look forward to the opportunity to work together in support of your energy needs.

PROPANE SUPPLY PROPOSAL & AGREEMENT

Propane Supply Agreement

PREPARED FOR
Donner Summit Public Utilities District
Attn: Jim King
53823 Sherrit Lane
Truckee, CA 96161

PREPARED BY
Jordan Terlouw, General Manager
Campora Propane - Colfax
jterlouw@campora.com
530-637-9393

Campora Propane is pleased to offer propane supply, equipment installation, and responsive service to DSPUD under the following terms.

$2.18 / gallon	$0 annual rental	5-year agreement
As of November 2, 2026	All eight tanks included	Begins upon final signature

01 Propane pricing

Propane pricing will be based on the BPN propane price published by the California Department of General Services (DGS), plus $0.51 per gallon. The current propane price is $2.18 per gallon as of November 2, 2026. Pricing is subject to market fluctuations and is not fixed for the five-year term.

02 California sales and use tax

The quoted propane price of $2.18 per gallon excludes applicable taxes. Applicable California sales or use tax will be added to invoices at the rate required by law unless DSPUD provides valid documentation supporting a legally applicable exemption. Public agency status alone does not establish a sales tax exemption.

03 Equipment installation and tank rental

Campora will disconnect the previous propane supplier's equipment and place it in a safe location. Campora will set and connect eight (8) 1,000-gallon propane tanks at no charge and provide the pigtails and regulators needed to connect each tank to the necessary propane pipelines. As part of the installation, Campora will transfer all propane remaining in the current supplier's tanks into Campora's tanks. DSPUD will lease the eight (8) tanks from Campora at an annual rental charge of $0 for the full five-year term, including the tanks, regulators, and pigtails.

04 Tank monitoring

Campora will provide the necessary tank monitors at no charge.

SERVICE COMMITMENTS & ACCEPTANCE

05 24/7/365 availability and emergency response

Campora is available 24 hours a day, 7 days a week, 365 days a year to answer questions and provide emergency services. Campora will respond to any service interruption or reported smell of gas free of charge. Contact Campora at 530-637-9393.

06 Road access and snow removal

DSPUD is expected to keep the road and access routes to the propane tanks clear of snow as much as reasonably possible. DSPUD will make reasonable efforts to maintain sufficient access for Campora's delivery trucks and service personnel, including access to the tanks for hose placement, delivery, inspection, and emergency service. DSPUD will notify Campora of known access restrictions and coordinate snow removal as needed to support safe access. Deliveries and onsite service require safe access conditions.

07 Five-year contract term

This agreement becomes effective on the date the last of the two parties signs below (the "Effective Date"). The agreement will remain in effect for five (5) years from the Effective Date and will expire on the fifth anniversary of that date. If the parties sign on different dates, the later signature date governs the start and expiration of the term.

08 Entire agreement and written changes

This agreement and any attachments constitute the entire agreement between Campora and DSPUD. Any modification or renewal must be in writing and signed by both parties. This agreement may be renewed upon mutual agreement of both parties. This agreement is binding upon the parties and their successors and assigns and will be governed by the laws of the State of California.

Acceptance

By signing below, each authorized representative acknowledges and accepts the terms of this proposal and agreement.

Donner Summit PUD

October 27th, 2026

(8) 1000gal CA Compliant Propane Tanks:

Equipment & Materials

All equipment shall be provided at no charge to customer.
All tanks shall be remotely monitored to ensure that propane does not run out.

Cost Per Gallon

All propane shall be sold at .28 cents over Ferrellgas cost with no additional fees or charges.

Cost is defined as: San Fracisco Targa
Please note market cost fluctuates weekly
Pricing will be proven each week by sending the posting cost to customer

As of 10/27/2026 the cost per gallon delivered to customer is: $1.78 a gallon

COST-PLUS AGREEMENT

Ferrellgas

Company name (hereinafter referred to as "Company") Ferrellgas

Customer name Donner Summit PUD Account number TBD

Billing address(es) Phone number

City State ZIP

PRICING:

[X] **BULK:** Your price will be set by adding a fixed margin of .28 cents over cost cents per gallon to the basing point.

Special Provisions/Definition of basing point:

*.28 cents over cost with no additional delivery fees or charges - market cost fluctuates weekly - San Francisco Targa.
*(8) CA compliant 1000gal tanks provided rental free & equipped with remote monitoring system
*No install fees
*Employee residential service discounts offered for propane service

[ ] **CYLINDER:** Your price will be set by adding a fixed margin of cents per gallon to the basing point.

Gallons (number of gallons in a cylinder) are then multiplied by the price per gallon for a total cost per cylinder.

Special Provisions/Definition of basing point:

Your price shall be set and adjusted in reference to the cost at the basing point defined above. Select the option desired below.

[ ] **DAILY** Your price shall be set in reference to the cost at the basing point on the day the agreement is activated and adjusted daily with the cost at the basing point.

[X] **WEEKLY** Your price shall be set in reference to the cost at the basing point on the day the agreement is activated and adjusted, if the cost at the basing point has changed, every seven days after that.

[ ] **MONTHLY** Your price shall be set in reference to the cost at the basing point on the day the agreement is activated. It will be adjusted, if the cost at the basing point has changed, on the of each month (1st, 15th, etc.).

For the weekly and monthly pricing options, if during the pricing period the daily cost at the relevant basing point varies by more than 15 percent from the cost being used for the current pricing period (whether the variation reflects an increase or decrease in the cost of product), your price shall be adjusted to reflect the current market cost and future purchases during that period will be priced in reference to the cost at the time of the adjustment.

SALE OF PROPANE. Ferrellgas agrees to sell and deliver to Customer and Customer agrees to accept and purchase from Ferrellgas all of Customer's propane requirements in accordance with this Agreement and the Terms and Conditions contained herein. Payment terms shall be net 30 days from invoice date, unless otherwise agreed. Customer's failure to keep his or her account current is a breach of this Agreement and future gas purchases will, at Ferrellgas' option, be at Ferrellgas' current daily price.

This Agreement will remain in effect initially from Date 11/16, Year 2026, to Date 11/16, Year 2031

[ ] **AUTOMATIC RENEWAL** This Agreement will automatically renew for additional one year terms unless terminated pursuant to the terms of this Agreement or unless one party sends to the other a written notice of its intent not to renew this Agreement no later than 30 days prior to the end of the then-current term. Such notice is effective at the end of the then-current term.

[X] **NON-RENEWABLE** This Agreement will expire on the date specified above.

CUSTOMER MUST BE CREDIT-APPROVED FOR TERMS.

I have read and understand all the Terms and Conditions provided to me by Company. I further understand that by signing this Agreement, I agree to the Terms and Conditions and acknowledge that this Agreement contains a binding arbitration provision that may be enforced by the parties. This supplements existing lease agreements with Company.

Please complete and sign this Agreement and return to Company postmarked no later than Date , Year .

Customer signature/date

Company representative signature/date

(See back for additional terms.)

ADDITIONAL TERMS

The following terms are a part of this Agreement

MARGIN In the event that Company desires to change the fixed margin, it shall notify Customer of the new margin no later than 30 days prior to the end of any anniversary date of this Agreement; Customer will then have the option of accepting the new margin or terminating the contract by sending notice to Company by that anniversary date, which notice shall be effective on that anniversary date only if received by Company. The new margin will be effective at the beginning of the next contract year. By accepting and paying for product at the new fixed margin, Customer consents to the new fixed margin for the remainder of the term.

EQUIPMENT. Company agrees to provide the propane equipment shown on the attached exhibit to store the product purchased by Customer. Customer agrees to pay to Company the sum of $ 0.00 for the first year's equipment rental, and $ 0.00 for each subsequent year's equipment rental. All equipment provided is the property of Company. Customer agrees to pay Company's costs for removal of equipment upon expiration of the agreement term or termination of this Agreement. Customer is responsible for any missing or damaged equipment, ordinary wear and tear excepted. The rental charges may be changed if additional equipment is provided or by the parties by a separate written agreement. Customer agrees that only Company may fill, pump out, alter, modify or service the tank and equipment, and agrees not to permit any other propane provider or contractor to do so.

DELIVERY POINTS. Any change in delivery points must be agreed upon by both parties. Alternate delivery points must be within Company's normal operating area. Customer agrees to pay additional transportation charges if any.

TITLE; RISK OF LOSS. Title and risk of loss to propane shall pass to Customer upon delivery by Company to the propane tank on Customer's property.

SPECIFICATIONS; MEASURE. The propane shall be commercial grade propane as that term is defined in GPA Liquefied Petroleum Gas Specifications (Publication 2140-90 as amended from time to time). The propane delivered hereunder will be odorized by Company at or before delivery by the addition of ethyl mercaptan in the ratio of approximately one and one-half (1.50) pounds per 10,000 gallons. One gallon shall be liquid capacity equal to 231 cubic inches.

LIABILITY; INDEMNIFICATION; HOLD HARMLESS. Each party ("Indemnitor") shall indemnify and hold harmless the other party and any of the other party's employees, contractors and agents (collectively the "Indemnities"), from and against any and all claims, losses, damages, causes of action, suits, liabilities, and judgments of every kind and character, including all expenses of litigation, court costs, and reasonable attorneys' fees, for bodily injury, death, or damage to or destruction of property, that Indemnities may sustain, to the extent proximately caused by the Indemnitor's employees, contractors or agents negligent or unlawful conduct. In cases of joint or concurrent negligence, each party shall be responsible to the extent of its respective negligence.

DEFAULT; REMEDY. An event of default shall occur if Customer fails to perform or observe any covenant, condition, or agreement to be performed or observed hereunder, and such failure continues uncured for fifteen (15) days after written notice thereof. Upon the occurrence of default, Company may withhold further performance hereunder until such conditions have been complied with or, at its option, immediately terminate and cancel the Agreement as to further shipments. If Company terminates this Agreement upon a default by Customer or Customer terminates this Agreement without cause, Company is entitled to take possession of its equipment from Customer and Customer will be assessed damages for the lost margins of Company based upon past actual volume usage at the fixed margin stated above, computed for the remainder of the contract term. The parties recognize that it would be extremely difficult to ascertain the extent of actual damages caused by Customer's default, and that said fixed margin computation represents as fair an approximation of such actual damages as the parties can now determine. Customer agrees to pay Company's costs for removal of equipment upon default or early termination, and shall further pay a pro rata share of Company's installation and capital costs in such event, prorated based upon the date of termination or default in relation to the contracted expiration of the term of this Agreement.

TERMINATION. This Agreement may be terminated by the non-defaulting party in the event of a default, as described above. In the absence of a default, either party may terminate this Agreement effective at the end of the current term by sending notice of intent not to renew as provided in the Term section.

FORCE MAJEURE. Except with respect to the obligation of Customer to make payment for propane received, each party shall be excused for delay or failure in performance by reason of any cause beyond the party's control, including war, fire, strikes, revolutions, riot, acts of hostility, governmental acts and requests, governmental interference, flood, storm, any act of God, or any other extraordinary cause over which neither party has control, whether or not similar to any of the foregoing, including, but not limited to, pipeline allocations or shortage of product. Upon cessation of the cause or causes for any such failure or delay, performance hereof shall be resumed, but such failure or delay shall not operate to extend the term of this Agreement nor obligate either party to make up deliveries or receipts as the case may be. Nothing herein contained shall excuse Customer from paying Company, when due, any amounts payable hereunder or pursuant hereto. Company shall not be obligated to purchase propane for delivery and sale hereunder from others in order to replace the quantities of propane so curtailed or cut off by reason of circumstances beyond its control. Notice of party's claims of excused performance due to circumstances beyond its control shall be given to the other party as soon as reasonably possible after the occurrence of the cause upon which nonperformance is based.

SUCCESSORS AND ASSIGNS. The rights of the Customer shall not be assignable without the prior written consent of Company. This Agreement shall inure to the benefit of and be binding upon the personal representatives and successors of the parties.

WAIVER. No failure or delay in executing any of Company's rights hereunder shall prevent its execution at a later date and neither shall a waiver by Company of any breach by the Customer be deemed a waiver of subsequent breach.

GENERAL. This contract shall embody the entire Agreement between Customer and Company on propane pricing. No modification hereof shall be of any effect unless such modification is in writing and executed by the parties hereto. A duplicate of the signed original of this Agreement shall be as binding on Customer as the original.

CONFIDENTIALITY. Material in this Agreement is confidential. It is intended only for the use of Customer. Any disclosure, unauthorized use, distribution, or taking of any action based on this information by any individual or organization other than Customer is strictly prohibited and will void this Agreement.

SAFETY WARNINGS. The odor of ethyl mercaptan can fade in certain circumstances, which are described in the warning materials Company has provided to Customer. Customer acknowledges receipt of this warning material and understands the important safety information contained in it.

LIMITED WARRANTY; DISCLAIMER. Company warrants that title to the propane delivered hereunder, at the time of its transfer to Customer, shall be good and valid, free from all liens, claims, and encumbrances and that its transfer to Customer shall be rightful. Company makes no other representations or warranties of any kind whatsoever, direct or indirect, express or implied, including, without limitation, none as to the suitability, merchantability, fitness for use, or fitness for a particular purpose of such propane. Company expressly disclaims and excludes all such representations and warranties.

DAMAGES. Company is not responsible for damage caused by LP gas or equipment, delivery trucks, bulk storage containers, and regulators, as a result of conditions beyond Company's control. Neither party shall be liable to the other for indirect, consequential or special damages arising from the performance or breach of this Agreement, except to the extent required to indemnify a party for such damages due to a third party pursuant to the indemnity provisions of this Agreement.

ARBITRATION. Except with respect to claims by Company for payment of amounts due for propane purchases or equipment rental, removal and/or installation costs (including all applicable fees, late payment charges, returned check charges and collection costs), Customer and Company agree that any claim, dispute or controversy, whether in contract, tort (intentional or otherwise), including without limitation, product liability, property damage, personal injury claims, or claims based on strict liability, whether pre-existing, present or future, and including constitutional, statutory, common law, regulatory, and equitable claims in any way related to (a) the services or equipment leased or sold herein, (b) the propane delivered or sold hereunder, (c) this Agreement, or (d) the safety materials, advertisements or any other materials provided by Company in any way relating to the services, equipment or business dealings of the parties, including the validity, enforceability or scope of this arbitration provision (collectively a "Claim") shall be resolved, upon the election of either party by binding arbitration administered by and under the applicable rules

Ferrellgas

ADDITIONAL TERMS

The following terms are a part of this Agreement

either the American Arbitration Association, JAMS/Endispute or the National Arbitration Forum in effect at the time the Claim is filed. The number of arbitrators shall be three, including at least one attorney with at least 10 years' experience. The place of arbitration shall be Overland Park, KS. Judgment on the award rendered by the arbitrators may be entered in any court having jurisdiction thereof. **NO CLASS ACTIONS OR JOINDER OR CONSOLIDATION OF CLAIMS WITH OTHER PERSONS SHALL BE PERMITTED IN THE ARBITRATION WITHOUT THE CONSENT OF BOTH COMPANY AND CUSTOMER.**
